

Low cost presses
with Professional Results

The JetPress machines are a heavy duty line of low-cost, economical heat presses. Intended for start-ups, home use, and non-production oriented heat pressing, the JetPress machines are ideal for ink-jet, bubble-jet, laser, copier & sublimation iron-on transfer paper users seeking professional quality imprinting results, without the costs associated with commercial press equipment.

These presses apply several hundred pounds of clamping force with little operator effort, providing the pressure needed for professional iron-on transfer paper results that last. They also provide far higher temperatures necessary for a perfectly successful transfer than a hand iron is able to deliver.

Those who seek fast, consistent & long lasting transfer printing results will find the JetPress line the perfect answer... professional results for a fraction of the cost of high-end heat press equipment!

JetPress 12

- 9" x 12" Heat Platen
- Smooth swing away action
- Preset/fixed-temperature control for all standard transfer applications
- Solid steel welded frame
- Adjustable clip for pressing mousepads & misc thick items
- Silicone pad pressing surface
- Heating indicator light
- Modular cord & plug
- One Year Warranty
- Lifetime warranty on heating element

Weight: 30 Lbs
Electrical: 650W/5.4A/120V
Dimensions: 16"D x 18"W x 10"H

JetPress 14

- 12" x 14" Heat Platen
- Fully adjustable temp control
- Accurate temperature gauge
- Heavy duty clamping & locking pressure w/ minimal operator effort
- Large easy to close handle
- Full pressure adjustment
- Easy open Gas-spring assisted lift
- Silicone pad pressing surface
- Heating indicator light
- Modular cord & plug
- One Year Warranty
- Lifetime warranty on heating element

Weight: 59 Lbs
Electrical: 1200W/10A/120V
Dimensions: 25"D x 16"W x 24"H
