Promotion ends 7/17/09

A four-color printer means you only have to purchase four cartridges, enabling a savings in initial purchase ink cost. Easy Flow™ or Quick Connect™ systems are unnecessary as the ink delivery system is built-in.

Printer
Only
\$747.00

Multi Bypass Tray
\$158.64
7.25X10.5 to 13X19
Banners to 13X51
100-sheet capacity

Paper Feed Unit
\$202.89
Accepts Paper from 7.25X10.5 to 11X17
250-sheet capacity

The DyeTrans GX7000 is expandable by adding additional paper trays. The base unit allows printing up to 11" X 17"; with the addition of the Multi Bypass Tray the printing parameters increase to 13" X 51". Adding the Paper Feed Tray creates three possible paper paths, enabling you to load this wicked fast printer with three different sizes of paper at once, thereby increasing your shop output.

- Print speed of 30 ppm
- Standard 250-sheet paper tray
- Standard 64 MB memory
- ICC Profile: All trays and all sizes supported by the printer.

The DyeTrans GX5050N is expandable by adding additional paper trays. Adding the Paper Feed Tray creates three possible paper paths, enabling you to load this wicked fast printer with three different types of paper at once, thereby increasing your shop output in such a way as to meet the demands of your business.

SubliJet® R

The Sawgrass® Sublimation ink solution is a next generation innovation, a GEL sublimation ink created for the GX5050N called SubliJet-R™. This cutting edge printer utilizes large cartridges, which contain 60ml of ink. You don't need to fool around with the bulk system anymore! A four-color printer means you only have to purchase 4 cartridges, enabling a savings in initial purchase ink cost. Easy Flow™ or Quick Connect™ systems are unnecessary as the ink delivery system is built-in.
