

Techni-Print 4.0 Instructions

TECHNI-PRINT® 4.0 Papers are designed for both oil and oil-less laser printers and copiers. They are for the heat transfer of photos and images to T-shirts, sweatshirts, mousepads, coasters, puzzles, handbags, binders, padfolios, paper, leather, magnets, wood veneer, nylon and more. Choose garments that have a tight weave. This is particularly important when transferring to sweatshirts.

PRINTING

1. Mirror the image.
2. Load the paper so that the image will appear on the coated side of the paper.
3. **TECHNI-PRINT® 4.0 Paper** should be fed into the copier or printer with the short dimension first (grain long).
4. Start with "Plain Paper" mode. If toner does not fuse completely, adjust to a heavier paper setting.
5. Trim away the unprinted areas of the transfer if desired.

TRANSFERRING

Using a Commercial Heat Press

1. Place the transfer sheet face down on the substrate and press: **30 seconds at 375°F using heavy pressure**
2. Peel while still hot.

WASHING INSTRUCTIONS

Turn garment inside out and wash in cold water using a mild detergent. Do not use bleach. Dry on low heat setting. Do not iron directly on the transferred area.

STORAGE AND HANDLING OF TECHNI-PRINT® 4.0 HEAT TRANSFER PAPERS

Store **TECHNI-PRINT® 4.0 Papers** in a cool, dry area and do not remove from carton or poly bag until you are ready to use.

Refer to www.conde.com for information on our entire line of heat transfer products.

Condé Systems, Inc. provides products that are intended for professional use only and for users who have read and understood the instructions for proper application. Please consult a qualified Condé technician for inquiries where further clarification is required. Improper use and installation will result in undesirable results in the imprinted item and damage to your heat press, printer components and other related equipment. Condé Systems, Inc. assumes no liability whatsoever, expressed or implied, for the use of these products, nor their installation. Condé Systems assumes no legal liability or responsibility for the accuracy, completeness or usefulness of any information, apparatus, product, or process disclosed, or represents that its use would not infringe privately-owned rights. Past performance is not necessarily indicative of future results.
